

Update on ATC-supported EORTC Meningioma Protocol 22042-26042

- Meetings:
 - Drs. Purdy, Bosch, and Deye met with Drs. Aird (UK) and Herkmans (NL) at ASTRO to discuss ATC support for this trial.
 - Dr. Bosch met with Drs. Gregoire and Haustermans at ESTRO/GENEPI workshop 12/11/06.
- Action
 - RRT accounts created for Drs. Aird, Herkmans,
 - Complete TP data set received from Dr. Herkmans to ITC via SFTP
- Issues
 - Applicability of “JCOG/ITC” data submission/QA model to ~10 EORTC institutions for this trial?
 - IT Help Desk Support for European institutions?

ESTRO GENEPI-2 Workshop

December 11, 2006, Brussels, Belgium

- GENEPI – Genetic Pathways for the Prediction of the Effect of Irradiation – European Normal and Tumour Tissue Bank and Database
- Collection of protocols from multiple centers throughout Europe
- Recognized need for QA and archiving of TP data to correlate (planned) dose with tissue response.
- Workshop December 11, 2006 at EORTC, Brussels, Belgium on submission and review of radiotherapy data
 - 3D Line Ergo TPS to be used for visualization and QA of treatment planning data
 - Database to be developed by Amidon using mySQL
